

ARK™ Methotrexate Assay Application

QuidelOrtho Vitros® XT 7600 Integrated System, Vitros® 5600 Integrated System and Vitros® 4600 Chemistry System

Reference No. 5026000100

Intended for the Quantitative Determination of Methotrexate in Human Serum or Plasma.

For In Vitro Diagnostic Use Only

Intended Use	<p>The ARK Methotrexate Assay is a homogeneous enzyme immunoassay intended for the quantitative determination of methotrexate in human serum or plasma on automated clinical chemistry analyzers. The measurements obtained are used in monitoring levels of methotrexate to help ensure appropriate therapy.</p> <p>Specimens from patients who have received glucarpidase (carboxypeptidase G2) as a high dose methotrexate rescue therapy should not be tested with the ARK Methotrexate Assay.</p>																					
Additional Information Required	<p>The information provided in this application sheet is intended as a supplement to the package insert. Refer to applicable ARK reagent, calibrator, control and dilution buffer package inserts for intended use, reagent storage, specimen handling, calibration, quality control and other required information.</p> <p>For package inserts, visit www.quidelortho.com> Resources > Technical Documentation > MicroTip Partnership Assays (MPAs).</p>																					
Ordering Information	<p>Please place your order with QuidelOrtho. Ordering information available on www.quidelortho.com.</p> <table border="1" data-bbox="481 1362 1444 1742"> <thead> <tr> <th data-bbox="481 1362 840 1404">Item</th><th data-bbox="840 1362 1166 1404">Reference Number</th><th data-bbox="1166 1362 1444 1404">Configuration</th></tr> </thead> <tbody> <tr> <td data-bbox="481 1404 840 1467">MTX 88t/kit</td><td data-bbox="840 1404 1166 1467">5026000100</td><td data-bbox="1166 1404 1444 1467">R1: 1 x 16 mL R2: 1 x 8 mL</td></tr> <tr> <td data-bbox="481 1467 840 1510">MTX Cal</td><td data-bbox="840 1467 1166 1510">5026000200</td><td data-bbox="1166 1467 1444 1510">6 x 2 mL</td></tr> <tr> <td data-bbox="481 1510 840 1552">MTX Ctrl (Cal and Hi Range)</td><td data-bbox="840 1510 1166 1552">5026000300</td><td data-bbox="1166 1510 1444 1552">6 x 2 mL</td></tr> <tr> <td data-bbox="481 1552 840 1594">MTX Ctrl (Cal Range)</td><td data-bbox="840 1552 1166 1594">5026000301</td><td data-bbox="1166 1552 1444 1594">3 x 2 mL</td></tr> <tr> <td data-bbox="481 1594 840 1636">MTX Ctrl (Hi Range)</td><td data-bbox="840 1594 1166 1636">5026000302</td><td data-bbox="1166 1594 1444 1636">3 x 2 mL</td></tr> <tr> <td data-bbox="481 1636 840 1742">MTX Diluent</td><td data-bbox="840 1636 1166 1742">5026000400</td><td data-bbox="1166 1636 1444 1742">1 x 25 mL</td></tr> </tbody> </table>	Item	Reference Number	Configuration	MTX 88t/kit	5026000100	R1: 1 x 16 mL R2: 1 x 8 mL	MTX Cal	5026000200	6 x 2 mL	MTX Ctrl (Cal and Hi Range)	5026000300	6 x 2 mL	MTX Ctrl (Cal Range)	5026000301	3 x 2 mL	MTX Ctrl (Hi Range)	5026000302	3 x 2 mL	MTX Diluent	5026000400	1 x 25 mL

Dilution Protocol	<p>The measurement range of the ARK Methotrexate Assay is 0.04 – 1.20 µmol/L. Specimens and controls containing methotrexate in higher concentrations (>1.20 µmol/L) are assayed by dilution of the specimens and controls into the measurement range. Specimens or controls may be diluted by using the ARK Methotrexate Dilution Buffer. Prepare the appropriate ten-fold serial dilution as shown below. Multiply the assayed result by the dilution factor.</p> <table border="1" data-bbox="486 460 1485 762"> <thead> <tr> <th>Volume</th><th>Sample</th><th>Dilution Buffer Volume</th><th>Dilution</th><th>Dilution Factor</th></tr> </thead> <tbody> <tr> <td>50 µL</td><td>Undiluted sample</td><td>450 µL</td><td>1:10</td><td>10</td></tr> <tr> <td>50 µL</td><td>1:10 sample</td><td>450 µL</td><td>1:100</td><td>100</td></tr> <tr> <td>50 µL</td><td>1:100 sample</td><td>450 µL</td><td>1:1000</td><td>1000</td></tr> <tr> <td>50 µL</td><td>1:1000 sample</td><td>450 µL</td><td>1:10000</td><td>10000</td></tr> </tbody> </table> <p>ARK Diagnostics, Inc. and QuidelOrtho have validated the 1:10 auto-dilution procedure on the Vitros® 5600 System and Vitros® 4600 System*. The auto-dilution procedure allows for automatic dilution of the patient specimen by the analyzer and uses ARK Methotrexate Dilution Buffer on board. One level of auto-dilution is possible. Higher dilutions require pre-dilution manually with the ARK Methotrexate Dilution Buffer. Specimen dilution is required for concentrations that exceed the assay measurement range of 0.04 to 1.20 µmol/L.</p> <p>UDDL: Methotrexate Dilution Buffer (16 mL)</p> <p>Dilution Buffer stored in UDDLx dilution pack onboard the analyzer was stable for 60 days based on supporting data.</p> <p>*Performance characteristics for the Vitros® 5600 System are applicable to the Vitros® XT 7600 System.</p>	Volume	Sample	Dilution Buffer Volume	Dilution	Dilution Factor	50 µL	Undiluted sample	450 µL	1:10	10	50 µL	1:10 sample	450 µL	1:100	100	50 µL	1:100 sample	450 µL	1:1000	1000	50 µL	1:1000 sample	450 µL	1:10000	10000

Defined Assays**

**Please order
from
QuidelOrtho**

Note: Once the individual UDxx pack number is selected for use during the protocol programming, it is the only UDxx pack number to use for this protocol.

Note: If using the ARK Methotrexate Diluent, it must be transferred into a UDA Diluent Pack (6802256 or 6802257).
