

# Vitros<sup>®</sup> Duo and Duo+

Part of Vitros Automation Solutions

Small footprint. Big impact.

# Automation that's ready when you are

Every day, you're asked to do more with less

Now you can fast-track your way to meeting workflow demands by combining Vitros integrated systems with easy-to-implement automation.

Gone are the days when streamlining your workflow seemed like an unachievable goal meant only for big budget labs. Now it's within your reach. The configurations are ready. The layout options are straightforward. **Let's get your systems connected.**

- ✓ Preconfigured options
- ✓ Expert automation implementation team
- ✓ Fast implementation plan
- ✓ Ongoing, post-implementation support

## Vitros Duo or Duo+ — designed to grow with your lab

Think of this as the beginning of your automation journey. As your lab grows, you can add modules and tracks to meet your needs. With the addition of automation, you will take advantage of the full Vitros solution, including integrated systems, quality assays and enabling technologies.

### Already have two Vitros integrated systems?

Build on the systems you already rely on by easily connecting them. Start optimizing your lab's efficiency today.

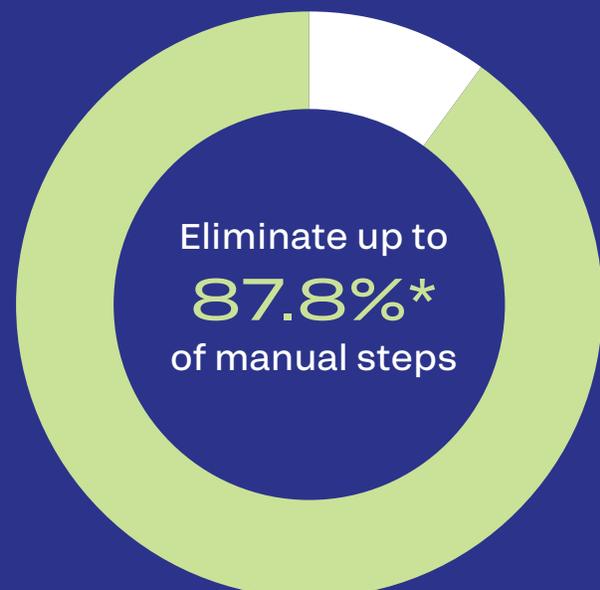

## Fewer manual steps so that your lab's efficiency can exponentially improve

By reducing tedious manual tasks through automation, you can minimize the opportunities for error, simplify workflow and free up staff so they can spend their time delivering quality diagnostic results that impact patient care.

### By adding Vitros Duo or Duo+ Automation, your lab can:

- Decrease manual steps by up to 87.8%\*
- Reduce or eliminate repetitive tasks
- Impact the quality of patient care

\*Based on the workflow steps of a typical QuidelOrtho clinical laboratory customer. Actual steps may vary by laboratory. Data on file.

## Automation that's easier than you imagined

- Load and remove samples from a single entry/exit point
- Avoid interruptions with automatic load and menu balancing
- Free up staff to focus on delivering accurate results with automated sorting and de-capping
- Easily access samples from racks where they are prepared and stored
- Minimize technician time with automatic sample routing and retrieval

## Meet operational demands without taking up more lab space

Imagine a more efficient workflow that maximizes your lab's unique footprint without having to add another instrument and lowers your total cost of ownership. Automation is within your reach.

### Vitros Duo or Duo+: What's the difference?

Duo+ configurations include an automated centrifuge.

## Choose your ready-to-go automation track for quick implementation

Duo+ configurations shown feature an automated centrifuge

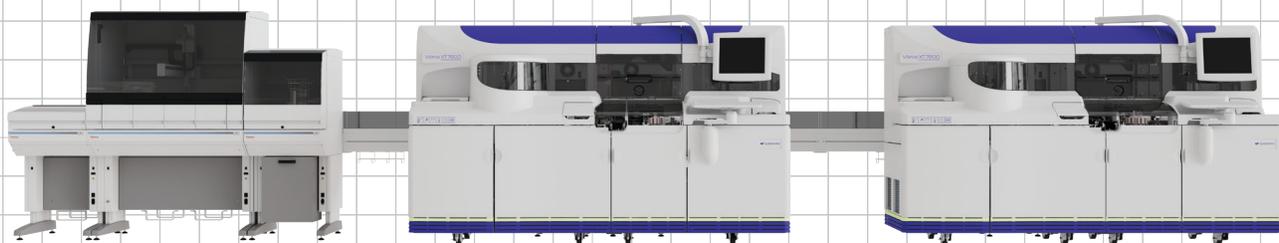

### Linear Track Dimensions

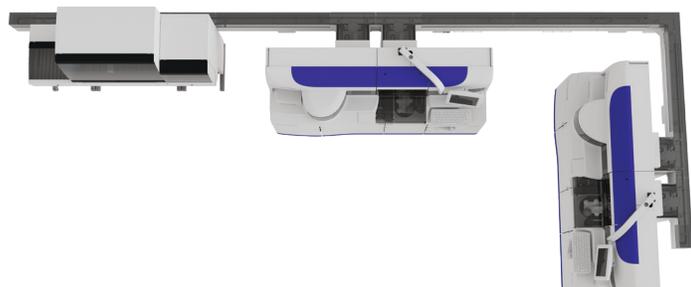

Length: 32' 4"

Width: 5' 00"

### Linear Track

### L Corner Track

### Compact Track

## Seamless automation is faster than you think

Our expert automation implementation team will work with you to ensure a smooth process.

## Let's get started
